

# KNOW HOW IN NO TIME

## How To Freshen Up Your Deck

Is your deck looking a little under the weather? We make it easy to breathe life back into it with premium stains and the accessories.

### Recommended Materials:

**Cabot® Stain**

**Purdy® Paintbrush  
-Or- Cabot® Stain Pad**

**Pressure Washer**

### Staining Your Deck:

**#1**

#### **Prepare The Deck Surface**

Make sure your deck is free of rot, mildew, dirt and debris. Clean with a pressure washer and detergent if needed.

**#2**

#### **Helpful Tips Before You Get Started**

- Apply stain when the temperature is between 50°F-90°F and wood is dry.
- Avoid applying in direct sunlight.
- Don't apply if rain is in the forecast for the next 1-2 days.
- If you are using multiple gallons mix them to ensure consistency.

**#3**

#### **How To Apply Stain**

Heavily coat the open end grain of the boards. Brush 2-3 boards at a time with long smooth strokes.

**#4**

#### **Avoid Lap Marks**

Make sure that the leading edge is kept wet and that wet stain is brushed into wet stain.
