

KNOW HOW IN NO TIME

Connecting Your Home With **nest**

Control your heating and cooling energy use through the use of your smartphone from anywhere in the world.

Tools/Materials Needed:

- | | |
|--|--|
| <input type="checkbox"/> Nest™ Learning Thermostat | <input type="checkbox"/> Philips screw driver bit |
| <input type="checkbox"/> WiFi Connection | <input type="checkbox"/> Nest™ Smartphone App
(Found on iTunes/Android) |
| <input type="checkbox"/> Variable Speed Drill | <input type="checkbox"/> Wire strippers & nuts |
| <input type="checkbox"/> Drill Bits (size depends
on anchor size) | <input type="checkbox"/> Electrical tape & tester |

Tips:

- 1** Turn off the power to all outlets you will be working with.
- 2** As you remove the old thermostat label your wires as you take them off (note the letter it was attached to).
- 3** Connect your new Nest™ thermostat to your smartphone.
- 4** Secure all wire connections back to connections on thermostat before turning the power back on.
- 5** Enjoy the experience that a new smarthome thermostat will provide for reducing heating and cooling costs.
- 6** Check with your local energy company for current WiFi thermostat energy rebates.
